Toronto

01-2026

## ABOUT

Music started with friends, playing and making ourselves happy, singing and being goofy and mimicking our favourite pop stars. I tend to remain true to that mind set. I had a semi-successful run as a teenager in a country-dance band and on my own playing through parts of Canada and Western Europe. I started to work harder at song-writing later to fine tune my chosen craft. Now, I play most of the instruments, record them myself, and enjoy a growing list of fans and outlets for my songs. Longevity is one of my strengths.

"Desmond Grundy writes and plays hooky guitar songs structured in the musical styles of the British Rock invasion and Americana. His work is original. The songs are singular. Each tune is a distinct work and his live show is ambitious."

Sounds-like: 70s, 80s rock with modern tech overtones, simple melodies and contemporary, story-telling lyrics. Similar to Tom Petty and Lou Reed; but also Ben Harper, Matthew Sweet, The War on Drugs, Galaxie 500, Sebadoh, Belle and Sebastian, The Go-Betweens, Todd Rundgren, Luna, The Dandy Warhols, Deerhunter, Courtney Barnett and Iggy Pop.

## MUSIC & VIDEO

Lyric videos and YouTube Topic videos, soundtracks and mini documentaries. Recordings of live sets and raw video captures.

## COMMENTS

Select Artist and Repertoire music commentary.

"...the absolute last thing I wanna' do is say that Desmond is the new Lou Reed 'cause he seems to be way too normal to be saddled with that kind of calamitous tag."

"Drop The Gloves' – Like early Dinosaur Jr. this track starts off at an elevation higher than your normal everyday. Raw and rough guitars scream and scrawl as the rave escalates."

"...a collage of edgy rock with a swagger and mojo not found since early J Mascis or the times of Kurt Cobain. Whiskey driven vocal grittiness..."

"Unique verse lyrics. I hear the Kinks influence in your verse melody! This has a great, convincing retro sound."

## DISCOGRAPHY

The songs have a retro sound that maybe goes as far back as Stone Roses or even Lou Reed in terms of style. The lyrical content and instrumentation are very current. It's a synthesis of what I like in instrument-driven, vocally determined music that takes no prisoners. Many of the songs on these albums are available for licensing, as instrumentals or with lyrics, through We Get Music at <https://songsupervisor.us>.
