30, 45 or 60 min. sets < 4hrs

This is a sample list, or cross-section, of many different set lists that I use to create a performance. What songs get played depends, overall on the audience and the ambience. This is a sideways glance at some of the other songwriters that I play. There are many other artists not listed here, and multiple songs to play from each of them. I also include a few of my own original songs in each set.
